

# Money and Banking B.S.B.

2019-2020

## I. Introduction

### a. [Department of Economics and Finance](#)

b. The purpose of the major is to prepare students for positions in the banking and financial services industries through advanced training that emphasizes both theory and practice. The major courses are taught by faculty members comprised of both academic researchers and experienced practitioners. The program involves collaboration with the banks in the Fort Wayne area.

### c. Student Learning Outcomes

- Upon completion of the money and banking major students will:
  1. understand and be able to explain how money, monetary policy and macroeconomic variables affect individuals and businesses;
  2. understand and be able to explain economic and financial aspects of day-to-day bank operations;
  3. be able to analyze, interpret and present financial data related to bank operations and monetary policy;
  4. be able to apply basic financial economics concepts and tools in a business decision-making process.
- In addition, upon completion of the Bachelor of Science in Business (B.S.B) Degree, the students will:
  1. be able to integrate fundamental principles of business theory and practice;
  2. be able to solve problems by modeling, analyzing data (qualitative and numeric), and using critical thinking skills;
  3. be able to understand the global and cultural implications of business decisions;
  4. be able to understand ethical considerations in business decision;
  5. be able to understand the relationship between the community and business;
  6. be able to demonstrate the effective communication and teamwork skills;
  7. be prepared for life-long learning in a dynamic environment.

### d. Accreditation

The BSB Degree is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

## II. Program Delivery

- d. Cumulative GPA requirement for graduation and Major GPA requirement for graduation
- to earn a BSB you must obtain an overall GPA of 2.3 in BUS and ECON courses.
- e. Special academic regulations specific to the program.
- A grade of C- or better in each BUS and ECON course. Developmental courses do not apply to degree requirements.
  - Your final consecutive 30 credits must be taken at Purdue Fort Wayne after you have been formally admitted to the B.S.B. program. Business majors may not count BUS, ECON or OLS courses towards their general education requirements (unless noted).

f. Student Responsibilities:

- You are responsible for satisfying the graduation requirements specified for your selected program. Thus, it is essential that you develop a thorough understanding of the required courses, academic policies, and procedures governing your academic career. All requests for exceptions to specific requirements must be made in writing and may be granted only by written approval from the appropriate chair or dean.

g. Time Limit:

- To ensure that you will be professionally competitive with other members of your graduating class, you may complete the degree requirements specified in the catalog in effect at the time you were formally admitted to the degree program only if:
  1. Progress toward your degree objective has been continuous. If you have not registered for degree-applicable courses as a Purdue Fort Wayne business major for a period of one calendar year, you will be considered as not progressing toward your original degree objective. Subsequently, if you qualify for re-entry to an undergraduate business program at Purdue Fort Wayne, you must satisfy the admission and degree requirements specified in the Purdue Fort Wayne catalog that includes your year of re-entry.
  2. No more than five years have elapsed since your admission to the business degree program. If more than five years have elapsed, your cumulative academic record will be reviewed by the appropriate business or economics department, and you will be required to meet the degree criteria specified in the current Purdue Fort Wayne catalog. This may result in your having to repeat those courses in which the original content is determined to be outdated.
  3. The necessary courses or degree programs are available. If the courses that were required at the time of your formal admission to the business degree program are no longer available, you must complete the current replacements for those courses. Should these newer courses require prerequisites you have not taken, you must also enroll for these prerequisites in the appropriate sequence.

h. Credit by Self-Acquired Competency

- is not allowed

i. Repeat Limits

- To remain eligible for the B.S.B. program, a student may not retake any of the 30000 or 40000-level BUS or ECON courses more than twice. An appeal may be made by the student to the Undergraduate Policy Committee (UPC) in the case of extenuating circumstances.

j. Program Transfer credit limitations

Generally, courses in basic business and economics subjects (10000-20000 level) will be accepted as equivalent if they are being transferred from regionally accredited institutions. Courses in advanced business and economics (30000-40000 level) will only be considered equivalent if they are from another business school accredited by The Association to Advance Collegiate Schools of Business (AACSB), were taken within the past five years, and were taken as a junior or senior class standing.

k. Other program requirements

- At least 50 percent of required business and economics courses must be completed at Purdue Fort Wayne in order for a B.S.B. degree to be awarded.
- Credit by Examination Under very limited circumstances and subject to the following policies, you may be permitted to earn credit by means of a special examination:
  1. In all cases, your eligibility for a credit examination; the type of examination; testing procedures, date, time, and location; and evaluation of your performance are the decision of the appropriate Purdue Fort Wayne business or economics department. The decision of the department is final.
  2. Credits earned by examination cannot exceed 10 percent of your total degree requirements.
  3. You may attempt an authorized credit examination only once.
  4. Only those examination scores that equate to a C- grade or better will be considered.
  5. Only the grade P will be reported for credit earned by examination.

l. Free Electives Credits:

11 credits from either business or non-business courses to complement your professional and educational objectives, and bring your degree total to at least 120 credits.

m. Total credits for degree: 120 credits.
